ABOUT ME

Hi, I'm Mazen, graduate with a diploma in computer programming interested in a programming, penetration testing and networking technologies has always been fun for me, this makes my passion never limit in obtaining a University degree or professional certificate. Therefore, studying and working on network, programming and pentesting is what I like to do in my spare time. I have goal to be OSCP certified. My current goal is to get the knowledge in programming, networking and pentesting.
