WORKING EXPERIENCE

INFORMATION SECURITY TECHNICIAN

Communications, Space and Technology Commission

2022 - Present

I'm working at the Communications, Space and Technology Commission, My job involves controlling internet servers over the country by filtering non-compliant sites and extracting domains of non-compliant applications so that I can track them through the system for filtering.

As a network technician, I have sufficient expertise in the field of network specialization, including setting up firewalls, configuring switches, routers, interconnecting networks, I am capable of identifying and repairing network issues.
