

Ahmed Masud AL-Johani

Computer and network technician

SUMMARY

Graduated Networking Technician I am looking for a technical position where I am able to learn new skills at a rapid rate, develop solutions when facing obstacles, and work with team members to achieve the goals of the organisation.

WORK EXPERIENCE

Hotel Reception

Feb 2018 - Jul 2018

Yanbu Towers Hotel
Yanbu, Saudi Arabia

Assistant Network Engineer

Jan 2019 - Apr 2019

Arabian-American Oil Company (Aramco)
Yanbu, Saudi Arabia

My cooperative training in Saudi Aramco for 4 months. Where I was able to develop my scientific and technical skills during this period. The tasks I did during the collaborative training period under the supervision of the company's networking department:

- 1- Create a private network for devices coming from outside the company to be tested for viruses and technical problems before entering the Aramco network.
- 2- Installing protection programs on servers.
- 3- Providing weekly reports on the problems that occur in the network, if any, and ways to solve them.
- 4- Change network devices from switch and router with newer devices than before.

Experience of e-services in the dreams of Egypt for Information Technology

Apr 2019 - Dec 2019
