Efficient Industrial chemist. Skilled in instruments care and samples. Seeking to deliver fast, efficient analysis for chemicals samples by using instrument likes HPLC, GC and Atomic Absorption Spectrometer. I possess strong desire to work in exciting and diverse laboratories that have different products and samples that will make an impact on the work field and clientele. I am looking for an opportunity in an open friendly and professional environment where idea are shared.

## EDUCATION

### Diploma degree in Industrial chemistry

Jubail Industrial College

06/2020

## WORK EXPERIENCE

### Lab Chemist

The International Company For Chemicals LTD.

12/2020 - Present

Jubail Industrial City

*Achievements/Tasks*

- Mixing material to make fertilizer.
- Test substances and materials for chemical safety.
- Analyzed various substances to find their composition by using Atomic Absorption Spectrometer.
