Fresh Graduate

**Diploma in Chemical Engineering Technology**

## Objective:

A fresh Chemical Engineering graduate looking for working in a full time job.

I am very interested to work in a challenging environment such as manufacturing business or a company which is looking to develop my technical knowledge and skills.

## Education:

**Diploma** of Associate of Science in **Chemical engineering Technology**  
(2017-2021)  
Jubail Industrial College.

## Work experience:

**Chemical lab trainee** (2021 Jan – 2021 Apr)

**Industrial Support Services Company**, Dammam, Saudi Arabia

During those three months at ISS, I have gained knowledge about how to do testing and analysis of oil, water and gases. In addition, gaining experience on how to apply safety in the chemical lab and deals with chemical materials.

**Chemist** ( 2021 June – Present )

**Osaimi Geotechnic Company**, Alkhobar, Saudi Arabia

I am working as Chemist in OGO. I gained knowledge about how to testing and analysis on the soil, water and concrete.

## Skills:

- Microsoft Office.
- Teamwork.
- Fast learner.
- Good level of English and native Arabic speaker.
