I have the ability to independently multi-task in a fast pace environment and require little to no supervision. Quick learner, strong team player and a motivated team member. Looking for a Position as a Sailor that operate and steer water-based vessels, measure water depth, and manage cargo onboard ships and other vessels. Work in a highly collaborative environment with other sailors and crew members, and primarily report to the captain and other ship officers. Because they work onboard vessels, sailors travel constantly and may be away from home for days or weeks at a time
