

Ali Radi Naas

QC & Lab Chemist

alinass901@gmail.com ✉

+966590744857 📞

14 February, 1997 📅

Interested in chemical laboratories and related items, and master of mathematical calculations and operations, and fluent in team work and initiative

EDUCATION

Industrial chemistry technology

Jubail industrial college

09/2015 - 10/2019

Courses

- Instrumental analysis
- Organic chemistry
- Inorganic chemistry
- Biochemistry
- Quality control
- Analytical chemistry

WORK EXPERIENCE

QC inspector

ALPLA Company

12/2020 - Present

Dammam

Manufacturing plastic bottle predorms . PET plant (Injection mold).for example (Pepsi bottle)

Tasks

- Responsible of Quality inspections (incoming-line - lab)
- operate lab devices such as (moisture, AA analyzer, IV,)
- Create COAs.
- Supervise sorting team (Blocking and rework)
- Checking the Quality of incoming (RM,PM,MB)
- Finished good quality inspection
- Raising NCRs

Co-op trainee as a chemist

Tasnee company - NIPRAS Department

06/2019 - 09/2019

Jubail industrial city

Achievements/Tasks

- Overview of laboratory instruments . As an example NMR ,IR,x-ray , HPLC , GC and GPC.
- Dibal project (process- laboratory- nursery).

SKILLS

Team work

Team leader

Communication skills

Hard worker

Work under pressure

Calculations

Computer skill

Precise & accurate

Analytical skill

Quick learner

PERSONAL PROJECTS

Sea water analysis (graduation project)
(01/2019 - 05/2019)

- To determine the concentration of sodium in sea water, and to find the percentage salt and total suspended solid and total dissolved solid . And to determine the hardness of sea water
- Electrolysis and distillation of sea water
- PH and density

REFERENCE

Available on request

COURSES

Gas chromatography

Corrosion is the silent enemy

Catalysis industrial application

Chemistry of saline water

Chemical innovations

Basic of digital marketing
