Address: Eastern Province, SA

Nationality: Saudi

Objective:

A fresh Chemical Engineering graduate looking for working.

I am very interested to work in a challenging environment such as manufacturing business or a company which is looking to capitalize my technical knowledge and develop my skills.

Education:

Diploma of Associate of Science in Chemical engineering Technology
(2017-2021)
Jubail Industrial College.

Courses:

- Transport process
- Process Equipment
- Simulation Process

Work experience:

- **Internship**
Industrial Support Services Company, Dammam, Saudi Arabia
(2021 Jan – 2021 Apr)

During three months at ISS, I worked as an internship, I gained knowledge about the testing and analyses on the oils, waters and gases. In additional I got full knowledge about safety in the chemical lab and deals with chemical materials.

Skills:

- Microsoft Office (word- excel and PowerPoint)
- Teamwork
- Good level of English and native Arabic speaker.
