## Summary

---

A recent graduate, I have the enthusiasm and the desire to apply what has been studied and learned in the College of Technology through my studies and then join training in my field of specialization, and I am ready

To achieve my goals, develop myself and my professional performance and raise the level of challenge to get the job, and I see in myself what qualifies me to apply for that job, communication to enhance professional relationships and maintain confidence in the work environment,

And discovering and developing what serves my specialty while bearing all the pressures of work,
