## PROFILE

---

To work in the field of penetration testing in cybersecurity to learn and train on hacking techniques and evaluate the strength of security systems.

## EXPERIENCE

---

I trained on Packet Tracer, I learned how to design and configure wired and wireless networks, configure network devices such as routers, switches, and firewalls, and gained skills in analyzing network traffic and troubleshooting issues using the software

📅 01/2023 - 03/2023 📍 Qassim University

## CERTIFICATES

---

–  
CCNA

Introduction to Linux system

Analysis of response to cyber security incidents

CCNAv7: Switching, Routing, and Wireless Essentials

Cloud Security course

CCNAv7: introductions to network

## EDUCATION

---

Diploma in Cybersecurity

Qassim University

📅 2023

## SKILLS

---

Python

Linux

PHP

SQL

## LANGUAGES

---

English language

## PROJECTS

---

QR Code Scanner

- Our project about QR Code Scanner Using specialized solutions, the goal is to provide a more secure layer of protection for users of QR Code Scanner applications. The goal is to ensure that malicious content is not present in the scanned QR Code.  
languages programming: HTML, CSS, JS
