

# Sultan Almutairi

Mechanical Maintenance Engineering  
Technology

## Personal Info

### Address

Jubail Industrial City

### Phone

0591009100

### E-mail

ok.tan019@gmail.com

### Date of birth

1994-05-11

## Skills

- Computer (Microsoft Programs)
- Commitment
- Ambition
- Available 24 hours
- Solving problems
- Teamwork
- Leadership
- Work Under Pressure
- English: Upper Intermediate level
- Able to maintain different kinds of valves, pumps, compressors and engines
- Knowledge of Auto Cad

## Summary

Seeking a dynamic technical work position that brings me an opportunity to apply my knowledge and skills, thus allowing me to grow academically and professionally. Extremely hard working maintenance professional, with a passion for repairing and diagnosing mechanical faults. In addition enjoys general mechanical maintenance activity and repairs.

As I move forward in my career I would like to continue to gain new skills both academic and vocational.

## Experience

2017-03 -  
2020-03

### Mechanical Locomotive Technician

#### SAR (Saudi Railways Company)

General Planned Maintenance to Original Manufacturer's Vehicle Maintenance Instructions, in addition to this was able to undertake many repairs both complex and physically challenging.

As a Locomotive Technician i am responsible for applying **corrective and preventive maintenance**. This position allows me to troubleshoot issues and improvise solutions.

I have worked on **assemble , disassemble and inspection of (Compressors, pulse filters valves, lube oil tanks, pumps, pre-heaters, Engine, flywheel, gear , oil sensors, pneumatic system, brake system, wheel measurement , gear cases, after coolers , turbochargers, blowers, returning tanks, fuel tanks )**

#### Achievements

Volunteered for working the generator alignment , when colleagues were apprehensive due to the **complexity** of it.

**Trained** new employees to do tasks in Safe and professional way .

Undertook training course on operation, maintenance or servicing of EMD and progress rail equipment and was very willing to enhance my skills for maintenance.

## Education

2012-09 -  
2016-09

### Jubail industrail college

Associate Degree in Mechanical Maintenance Engineering  
Jubail Industrial College (2012-2016)

#### Major course:

- Plant Maintenance
- Engineering Drawing
- Fluid Mechanics
- Applied Mechanics
- Applied Thermodynamics
- Electrical Machines and Controls
- Hydraulics and Pneumatic
- Power Generation Systems

## References

To whom it may concern.

Please accept this reference letter for Mr. Sultan Al Mutairi, who is applying for a position at your organization.

I was Mr. Sultan's foreman for 3 years here at Saudi Railways Company (SAR) in Nariyah.

Sultan started here as a technician with no previous experience in locomotive maintenance but very fast he became a "Go to" person when it came to complex mechanical work and/or troubleshooting on our 16 cylinder – 2 stroke diesel engines and any other mechanical issues on any locomotive component.

Because of his ability to learn fast, he has gained a lot of knowledge in a short time which put him in the position that he was trusted, by his line managers, to mentor some newly hired technicians.

I would like to mention, beside his technical skills one of his strengths was health and safety attentiveness.

In conclusion, I would recommend Mr. Sultan for any position that could utilize his skills (maintenance technician, trainer, quality inspector... and I would like to mention that in my opinion he could be a good leader as well). If you need any additional information feel free to contact me.

Best regards,
