

YOUSEF ALBUHMAD

Graduate In Chemistry

yoef.1418@gmail.com ✉

(+966) 535180022 📞

Jubail Industrial City, Alsharqia 📍

PROFESSIONAL PROFILE

A highly accomplished graduate who has recently obtained a prestigious diploma in industrial chemistry from a leading academic institution. Also has key professional experience within the Saline water conversion corporation. Has a proven record quality assuring laboratory procedures, leading complex research initiatives, and exceeding expectations set by colleagues and upper management.

EDUCATION

Associate Diploma Degree In Industrial Chemistry Technology

Jubail Industrial College , Jubail , KSA

2016 – 2020

GPA 2.62 out of 4

some Courses

- Organic Chemistry
- Analytical Chemistry
- Biochemistry
- Water & West Water Treatment
- In Organic Chemistry
- Instrumental Analysis
- Quality Control
- Introduction To Macromolecule

WORK EXPERIENCE

Cooperative Training Program Desalination Laboratories / Saline Water Conversion Corporation

Jubail City

Achievements/Tasks

- Assist laboratory specialist in performing routine laboratory tests, and carrying out a variety of technical support tasks in analysis and testing.
- Operate and analysis using analytical instruments such as Gas Chromatography, HPLC, PH / Conductivity meter, tension meter, Colorimeter, Karl Fischer colorimeter, and digital chlorine meter.
- Organize samples and Securely stored chemical substances, fluids, and compressed gasses as per safety instructions.
- Perform Quality Control procedures and routine statistical calculations to report the results of analyses and tasks.
- Maintained and Calibrate the equipment of the laboratory to control the quality and quantity of the laboratory supplies.
- Prepare the experiments as Collecting and preparing samples for tests and analysis.
- Accurately record the data, information, and results.

SKILLS

Communication & Team Building Skills

Time Management

Self Determination

Quality Assurance & Control

Teamwork

Reports & Presentations

Fast Learner

MS Excel, Word & Outlook

Punctual

Full Knowledge Of Laboratory Safety Rules

GRADUATION PROJECT

Solvent extraction from a wide variety of essential oils derived from lavender flowers, for the purpose of making high-quality perfumes.

CERTIFICATES

Full-Time English Course From Language Specialists International, Portsmouth, United Kingdom.

11/1/2016 - 27/5/2016

2 Recommendation Certificate From The Chemical Department In Jubail Industrial College.

2019-2020

TRAINING COURSES

- COSHH Hazard Communication Awareness.

The International Association For chemical Safety

- COSHH Risk Assessor.

The International Association For chemical Safety

- The Safety Data Sheet Awareness.

The International Association For chemical Safety
