Competent Plant Operator with success in accurately preserving excellent operations in a Chemical plant for quality. Accomplished in carefully monitoring day-to-day facility operations, recording accurate data, and operating equipment. Focused on safety when completing preventive maintenance, performing repairs and adjusting settings.

EXPERIENCE

6/20/2021 – 10/07/2021

COOP STUDENT, SABIC (PETROKEMMYA)

3 Months coop training in Ethylene production plant. Learned the overall process and operational activities.

Main activities:

- Line tracing utilizing P&IDs in furnace area.
- Learned about safety operating procedures.
- Witnessed several operational activities e.g. leak test, mini-equipment startups (pumps, compressors), cold and hot work permits, and confined spaces entry
- Witnessed and observed a major plant emergency Shutdown / Startup and how operation team reacted in that situation.
- Learned about DCS operator roles and responsibilities and how they interact with field operators.
- Worked with shift teams and learned how shift handovers and activities are being done.

EDUCATION

OCTOPER 2021

DIPLOMA IN PROCESS

OPERATION SKILLS

(CHEMICAL SKILLS),

JUBAIL TECHNICAL

INSTITUTE

GPA: 3.23 OF 4

Main Subjects

- Industrial Processes
- Process Troubleshooting
- Technical Drawing (Auto CAD)
- Process Quality Control

SKILLS

- Adobe Photoshop
- Photography
- Adobe Premiere
- Team work
- Microsoft office

CERTIFICATES

- NASP 30 H GENERAL INDUSTRY
- Emergency- first aid- Evacuations operations
- 30H general safety education US
- Occupational Safety and Health Supervisor Diploma
- 10H Risk management
- 30H Occupational Safety and Health according to OSHA standard
- 10H Safety Supervisor skills in accordance with British standard
